

Fixed-price delivery SOW

Term and identity

Fixed-price delivery SOW: ETL migration and data integration. Supplier Orivanta Data Engineering; buyer Meridian Vale Financial Group. Original fictional terms. Annual scope is delivered in approved work packages during the multi-year term.

Field	Synthetic value
Framework / order	FA-004 / ORD-004
Contract / SOW	CTR-004 / SOW-004
Supplier / vendor ID	Orivanta Data Engineering / V-004
Customer	Meridian Vale Financial Group
Service / owner	SVC-004 / Data platform owner (OWN-004)
Commencement / expiry	2025-01-01 / 2027-05-26
Renewal notice deadline	2027-03-27 (60 calendar days before expiry)
Renewal mechanism	12-month automatic extension unless timely notice
Commercial model	Fixed price with acceptance gates
Contacts	v-004@example.com; owner-004@example.com
Service locations	US-East, India-West and UK-South
Version / as-of	2.0 / 2026-09-28

Order precedence for this invented pack: an approved change note overrides only the provisions it identifies; then this SOW, its named schedules and the fictional framework apply. Ambiguity is referred to the commercial owner.

Fixed-price delivery SOW (continued)

Fixed-price scope and acceptance

In scope: Migrate 36 ETL jobs across 12 feeds; reconcile transformations; support scheduled loads.

Excluded: Upstream source correction and analytical model approval.

Output	Specific acceptance test
Source-to-target mapping	12 feeds and 180 fields mapped; data stewards sign every transformation
ETL migration waves	36 jobs reconcile record counts exactly and monetary totals within \$0.01
Parallel run and handover	20 consecutive business-day loads complete by 06:00 UTC; restart is idempotent

Required delivery roles: Data architect, ETL engineer, Data quality analyst.

Gate	Target from annual kickoff	Budget allocation
SOW-004-D1	Week 4	20% / \$840,000.00
SOW-004-D2	Week 16	50% / \$2,100,000.00
SOW-004-D3	Week 24	30% / \$1,260,000.00

Each annual wave starts with a buyer-approved kickoff and source-access checklist. Delay of a prerequisite triggers a recorded replan; it does not imply acceptance.

Acceptance: Data platform owner reviews evidence within ten business days. Written deficiencies require correction and retest. Silence is not acceptance.

Fixed-price delivery SOW (continued)

Fixed-price pricing and ordering

Annual delivery-wave price is fixed for the stated outputs; monthly progress instalments total that price. Final acceptance remains mandatory; failed outputs are corrected at supplier cost. No automatic hourly overrun billing.

Annual commercial baseline	USD / rule
Forecast / base	\$4,200,000.00
FY2025 actual	\$4,800,000.00
Approved uplift ceiling	\$600,000.00
Payment terms	Net 45 days; Monthly progress instalments
Workforce allocation	16 billable assignments + 0 non-billable shadows

FY2025 invoice summaries are monthly allocations. Gate funding, accepted units or approved timesheets determine entitlement; forecast is not a minimum purchase. Positive adjustments need CCN-004-2025; negative variances reflect reduced authorized scope or quantities.

Resource allocated monthly fees are cost attribution only, not the contractual rate card or salaries. Forecast excludes tax. The annual baseline is not total multi-year contract value.

Fixed-price delivery SOW (continued)

Commercial and control terms

Renewal: the current term ends 2027-05-26. Notice is due 2027-03-27; the notice requirement is 60 calendar days. Automatic renewal applies only if no timely notice is received.

Convenience termination: 90 calendar days written notice. An early exit fee of 0 monthly base fees applies only to a convenience exit before term end. Transition services require an approved scope and must not be assumed free.

Schedule 3 service levels: see V-004_sla_risk_pack. The main service target is 98.0% monthly scheduled loads completed on time. A material incident requires notification, restoration coordination and a written cause/remediation record. Credits are estimates until validated under the service schedule.

Data and access: use least-privilege access, approved locations and documented retention. This dataset contains only artificial records. No actual customer, payment card, credential or protected personal data is included. Any proposed expansion of data processing requires review before access.

Continuity and exit: maintain current process or application maps, tested fallback instructions and named owners. Provide an inventory and reversible knowledge-transfer plan before transition. No alternative supplier is deemed interchangeable solely because capability keywords match.

Special condition: continuity evidence must be refreshed before renewal because the service supports critical applications.

Approval record: customer role Data platform owner and supplier role Service Director are the intended approvers. Signature fields are deliberately not executed. All acceptance and governance states in the dataset are fictional fixture states.
