

Managed service agreement

Term and identity

Managed service agreement: Network operations. Supplier Tervona Network Services; buyer Meridian Vale Financial Group. Original fictional terms. Annual scope is delivered in approved work packages during the multi-year term.

Field	Synthetic value
Framework / order	FA-006 / ORD-006
Contract / SOW	CTR-006 / SOW-006
Supplier / vendor ID	Tervona Network Services / V-006
Customer	Meridian Vale Financial Group
Service / owner	SVC-006 / Network service owner (OWN-006)
Commencement / expiry	2025-01-01 / 2027-09-28
Renewal notice deadline	2027-08-29 (30 calendar days before expiry)
Renewal mechanism	12-month automatic extension unless timely notice
Commercial model	Fixed managed service fee
Contacts	v-006@example.com; owner-006@example.com
Service locations	US-East, India-West and UK-South
Version / as-of	2.0 / 2026-09-28

Order precedence for this invented pack: an approved change note overrides only the provisions it identifies; then this SOW, its named schedules and the fictional framework apply. Ambiguity is referred to the commercial owner.

Managed service agreement (continued)

Managed scope and acceptance

In scope: Monitor links; coordinate carrier incidents; maintain approved configurations.

Excluded: Customer-owned endpoint support.

Output	Specific acceptance test
Link monitoring	All 120 links emit telemetry and alerts are routed to named owners
Configuration baseline	All 80 devices backed up and compared with approved configurations
Failover drill	Four designated paths fail over within 60 seconds with packet-loss evidence

Required delivery roles: Network lead, Network engineer, NOC analyst.

Cadence: Monthly ordering and evidence review; quarterly scope review. The annual quantity or roster baseline is reconciled at year end.

Acceptance: Network service owner reviews evidence within ten business days. Written deficiencies require correction and retest. Silence is not acceptance.

Managed service agreement (continued)

Managed pricing and ordering

Monthly fee buys the defined service coverage. Operational reports and measured service levels support acceptance. Additional assets require a priced change.

Annual commercial baseline	USD / rule
Forecast / base	\$2,400,000.00
FY2025 actual	\$2,400,000.00
Approved uplift ceiling	\$0.00
Payment terms	Net 30 days; Monthly in arrears
Workforce allocation	8 billable assignments + 0 non-billable shadows

FY2025 invoice summaries are monthly allocations. Gate funding, accepted units or approved timesheets determine entitlement; forecast is not a minimum purchase. Positive adjustments need CCN-006-2025; negative variances reflect reduced authorized scope or quantities.

Resource allocated monthly fees are cost attribution only, not the contractual rate card or salaries. Forecast excludes tax. The annual baseline is not total multi-year contract value.

Managed service agreement (continued)

Commercial and control terms

Renewal: the current term ends 2027-09-28. Notice is due 2027-08-29; the notice requirement is 30 calendar days. Automatic renewal applies only if no timely notice is received.

Convenience termination: 90 calendar days written notice. An early exit fee of 0 monthly base fees applies only to a convenience exit before term end. Transition services require an approved scope and must not be assumed free.

Schedule 3 service levels: see V-006_sla_risk_pack. The main service target is 99.9% monthly service availability. A material incident requires notification, restoration coordination and a written cause/remediation record. Credits are estimates until validated under the service schedule.

Data and access: use least-privilege access, approved locations and documented retention. This dataset contains only artificial records. No actual customer, payment card, credential or protected personal data is included. Any proposed expansion of data processing requires review before access.

Continuity and exit: maintain current process or application maps, tested fallback instructions and named owners. Provide an inventory and reversible knowledge-transfer plan before transition. No alternative supplier is deemed interchangeable solely because capability keywords match.

Special condition: continuity evidence must be refreshed before renewal because the service supports critical applications.

Approval record: customer role Network service owner and supplier role Service Director are the intended approvers. Signature fields are deliberately not executed. All acceptance and governance states in the dataset are fictional fixture states.
