

Capacity support schedule

Term and identity

Capacity support schedule: Application maintenance. Supplier Veylora Application Services; buyer Meridian Vale Financial Group. Original fictional terms. Annual scope is delivered in approved work packages during the multi-year term.

Field	Synthetic value
Framework / order	FA-009 / ORD-009
Contract / SOW	CTR-009 / SOW-009
Supplier / vendor ID	Veylora Application Services / V-009
Customer	Meridian Vale Financial Group
Service / owner	SVC-009 / Application portfolio owner (OWN-009)
Commencement / expiry	2025-01-01 / 2026-11-12
Renewal notice deadline	2026-10-13 (30 calendar days before expiry)
Renewal mechanism	Explicit written renewal required
Commercial model	Fixed capacity retainer
Contacts	v-009@example.com; owner-009@example.com
Service locations	US-East, India-West and UK-South
Version / as-of	2.0 / 2026-09-28

Order precedence for this invented pack: an approved change note overrides only the provisions it identifies; then this SOW, its named schedules and the fictional framework apply. Ambiguity is referred to the commercial owner.

Capacity support schedule (continued)

Capacity scope and acceptance

In scope: Resolve application defects; maintain interfaces; deliver minor approved changes.

Excluded: Major re-platforming or customer data ownership.

Output	Specific acceptance test
Maintenance releases	Six interfaces pass integration and backward-compatibility checks
Defect backlog burn-down	All accepted P2 items resolved within 10 business days
Application runbooks	Four application runbooks independently rehearsed by successor team

Required delivery roles: Application lead, Maintenance engineer, Interface analyst.

Cadence: Monthly ordering and evidence review; quarterly scope review. The annual quantity or roster baseline is reconciled at year end.

Acceptance: Application portfolio owner reviews evidence within ten business days. Written deficiencies require correction and retest. Silence is not acceptance.

Capacity support schedule (continued)

Capacity pricing and ordering

Retainer covers the named support roster. No implied feature-development capacity. Changes to roster or coverage require a signed change note.

Annual commercial baseline	USD / rule
Forecast / base	\$5,000,000.00
FY2025 actual	\$5,400,000.00
Approved uplift ceiling	\$400,000.00
Payment terms	Net 30 days; Monthly in arrears
Workforce allocation	24 billable assignments + 1 non-billable shadows

FY2025 invoice summaries are monthly allocations. Gate funding, accepted units or approved timesheets determine entitlement; forecast is not a minimum purchase. Positive adjustments need CCN-009-2025; negative variances reflect reduced authorized scope or quantities.

Resource allocated monthly fees are cost attribution only, not the contractual rate card or salaries. Forecast excludes tax. The annual baseline is not total multi-year contract value.

Capacity support schedule (continued)

Commercial and control terms

Renewal: the current term ends 2026-11-12. Notice is due 2026-10-13; the notice requirement is 30 calendar days. Renewal requires a new written approval.

Convenience termination: 90 calendar days written notice. An early exit fee of 2 monthly base fees applies only to a convenience exit before term end. Transition services require an approved scope and must not be assumed free.

Schedule 3 service levels: see V-009_sla_risk_pack. The main service target is 99.9% monthly service availability. A material incident requires notification, restoration coordination and a written cause/remediation record. Credits are estimates until validated under the service schedule.

Data and access: use least-privilege access, approved locations and documented retention. This dataset contains only artificial records. No actual customer, payment card, credential or protected personal data is included. Any proposed expansion of data processing requires review before access.

Continuity and exit: maintain current process or application maps, tested fallback instructions and named owners. Provide an inventory and reversible knowledge-transfer plan before transition. No alternative supplier is deemed interchangeable solely because capability keywords match.

Special condition: continuity evidence must be refreshed before renewal because the service supports critical applications.

Approval record: customer role Application portfolio owner and supplier role Service Director are the intended approvers. Signature fields are deliberately not executed. All acceptance and governance states in the dataset are fictional fixture states.
