

# SaaS subscription order

## Term and identity

SaaS subscription order: Workflow platform subscription. Supplier Solenquill Workflow Software; buyer Meridian Vale Financial Group. Original fictional terms. Annual scope is delivered in approved work packages during the multi-year term.

| Field                   | Synthetic value                                   |
|-------------------------|---------------------------------------------------|
| Framework / order       | FA-010 / ORD-010                                  |
| Contract / SOW          | CTR-010 / SOW-010                                 |
| Supplier / vendor ID    | Solenquill Workflow Software / V-010              |
| Customer                | Meridian Vale Financial Group                     |
| Service / owner         | SVC-010 / Workflow product owner (OWN-010)        |
| Commencement / expiry   | 2025-01-01 / 2027-02-25                           |
| Renewal notice deadline | 2026-12-27 (60 calendar days before expiry)       |
| Renewal mechanism       | 12-month automatic extension unless timely notice |
| Commercial model        | Named-seat subscription                           |
| Contacts                | v-010@example.com; owner-010@example.com          |
| Service locations       | US-East, India-West and UK-South                  |
| Version / as-of         | 2.0 / 2026-09-28                                  |

Order precedence for this invented pack: an approved change note overrides only the provisions it identifies; then this SOW, its named schedules and the fictional framework apply. Ambiguity is referred to the commercial owner.

## SaaS pricing and ordering

2,000 named seats; annual subscription billed in 12 instalments. No shared credentials. Extra seats need a prorated order; integration work outside the six workflows is excluded.

| Annual commercial baseline | USD / rule                                      |
|----------------------------|-------------------------------------------------|
| Forecast / base            | \$1,100,000.00                                  |
| FY2025 actual              | \$1,200,000.00                                  |
| Approved uplift ceiling    | \$100,000.00                                    |
| Payment terms              | Net 45 days; Monthly in arrears                 |
| Workforce allocation       | 4 billable assignments + 0 non-billable shadows |

Entitlements: 2,000 named seats; annual base price \$550.00 per seat. Seat usage requires an approved access register; four vendor assignments are support personnel, not licensed seats.

FY2025 invoice summaries are monthly allocations. Gate funding, accepted units or approved timesheets determine entitlement; forecast is not a minimum purchase. Positive adjustments need CCN-010-2025; negative variances reflect reduced authorized scope or quantities.

Resource allocated monthly fees are cost attribution only, not the contractual rate card or salaries. Forecast excludes tax. The annual baseline is not total multi-year contract value.

## SaaS scope and acceptance

In scope: Provide tenant access; support configuration; maintain agreed integrations.

Excluded: Unlimited custom development or client network availability.

| Output                   | Specific acceptance test                                                          |
|--------------------------|-----------------------------------------------------------------------------------|
| Tenant provisioning      | 2,000 named seats provisioned with SSO and role restrictions                      |
| Workflow configuration   | Six workflows pass 30 buyer-approved routing scenarios                            |
| Export and deletion test | Full tenant export is readable; deletion evidence delivered after authorized exit |

Required delivery roles: Tenant administrator, Workflow configurator, Integration specialist.

Cadence: Monthly ordering and evidence review; quarterly scope review. The annual quantity or roster baseline is reconciled at year end.

Acceptance: Workflow product owner reviews evidence within ten business days. Written deficiencies require correction and retest. Silence is not acceptance.

## Commercial and control terms

Renewal: the current term ends 2027-02-25. Notice is due 2026-12-27; the notice requirement is 60 calendar days. Automatic renewal applies only if no timely notice is received.

Convenience termination: 90 calendar days written notice. An early exit fee of 2 monthly base fees applies only to a convenience exit before term end. Transition services require an approved scope and must not be assumed free.

Schedule 3 service levels: see V-010\_sla\_risk\_pack. The main service target is 99.9% monthly service availability. A material incident requires notification, restoration coordination and a written cause/remediation record. Credits are estimates until validated under the service schedule.

Data and access: use least-privilege access, approved locations and documented retention. This dataset contains only artificial records. No actual customer, payment card, credential or protected personal data is included. Any proposed expansion of data processing requires review before access.

Continuity and exit: maintain current process or application maps, tested fallback instructions and named owners. Provide an inventory and reversible knowledge-transfer plan before transition. No alternative supplier is deemed interchangeable solely because capability keywords match.

Special condition: business acceptance and location/process coverage must be checked before consolidation.

Approval record: customer role Workflow product owner and supplier role Service Director are the intended approvers. Signature fields are deliberately not executed. All acceptance and governance states in the dataset are fictional fixture states.
