Advisory scope and acceptance

In scope: Run workshops; assess processes; deliver operating-model recommendations.

Excluded: Legal advice, audit opinion and execution of recommendations.

Output	Specific acceptance test
Current-state diagnostic	15 processes evidenced by interviews and source artifacts
Target operating model	RACI covers all 15 processes; 12 stakeholder owners resolve review comments
Business case and roadmap	Three options show assumptions, sensitivity and accountable decision owners

Required delivery roles: Engagement partner, Process consultant, Business analyst.

Gate	Target from annual kickoff	Budget allocation
SOW-018-D1	Week 4	30% / \$420,000.00
SOW-018-D2	Week 16	40% / \$560,000.00
SOW-018-D3	Week 24	30% / \$420,000.00

Each annual wave starts with a buyer-approved kickoff and source-access checklist. Delay of a prerequisite triggers a recorded replan; it does not imply acceptance.

Acceptance: Transformation owner reviews evidence within ten business days. Written deficiencies require correction and retest. Silence is not acceptance.

Advisory pricing and ordering

Three annual deliverables carry 30%, 40%, 30% of the price. Monthly progress instalments are credited against accepted milestones. Advice does not authorize implementation.

Annual commercial baseline	USD / rule
Forecast / base	\$1,400,000.00
FY2025 actual	\$1,560,000.00
Approved uplift ceiling	\$160,000.00
Payment terms	Net 30 days; Monthly progress instalments
Workforce allocation	10 billable assignments + 0 non-billable shadows

FY2025 invoice summaries are monthly allocations. Gate funding, accepted units or approved timesheets determine entitlement; forecast is not a minimum purchase. Positive adjustments need CCN-018-2025; negative variances reflect reduced authorized scope or quantities.

Resource allocated monthly fees are cost attribution only, not the contractual rate card or salaries. Forecast excludes tax. The annual baseline is not total multi-year contract value.

Commercial and control terms

Renewal: the current term ends 2026-10-28. Notice is due 2026-09-28; the notice requirement is 30 calendar days. Automatic renewal applies only if no timely notice is received.

Convenience termination: 60 calendar days written notice. An early exit fee of 0 monthly base fees applies only to a convenience exit before term end. Transition services require an approved scope and must not be assumed free.

Schedule 3 service levels: see V-018_sla_risk_pack. The main service target is 98.0% monthly review actions closed on time. A material incident requires notification, restoration coordination and a written cause/remediation record. Credits are estimates until validated under the service schedule.

Data and access: use least-privilege access, approved locations and documented retention. This dataset contains only artificial records. No actual customer, payment card, credential or protected personal data is included. Any proposed expansion of data processing requires review before access.

Continuity and exit: maintain current process or application maps, tested fallback instructions and named owners. Provide an inventory and reversible knowledge-transfer plan before transition. No alternative supplier is deemed interchangeable solely because capability keywords match.

Special condition: business acceptance and location/process coverage must be checked before consolidation.

Approval record: customer role Transformation owner and supplier role Service Director are the intended approvers. Signature fields are deliberately not executed. All acceptance and governance states in the dataset are fictional fixture states.
