Unit-rate pricing and ordering

Invoice approved delivered units against the stated rate card. Forecast quantities are estimates, not minimum guarantees. Reject duplicate or unverified units.

Annual commercial baseline	USD / rule
Forecast / base	\$900,000.00
FY2025 actual	\$840,000.00
Approved uplift ceiling	\$0.00
Payment terms	Net 60 days; Monthly in arrears
Workforce allocation	15 billable assignments + 0 non-billable shadows

Unit	Forecast annual quantity	Unit price
meal	36000	\$25.00

Any indivisible-cent remainder is reconciled on the final annual invoice.

FY2025 invoice summaries are monthly allocations. Gate funding, accepted units or approved timesheets determine entitlement; forecast is not a minimum purchase. Positive adjustments need CCN-020-2025; negative variances reflect reduced authorized scope or quantities.

Resource allocated monthly fees are cost attribution only, not the contractual rate card or salaries. Forecast excludes tax. The annual baseline is not total multi-year contract value.

Commercial and control terms

Renewal: the current term ends 2027-06-05. Notice is due 2027-03-07; the notice requirement is 90 calendar days. Automatic renewal applies only if no timely notice is received.

Convenience termination: 60 calendar days written notice. An early exit fee of 0 monthly base fees applies only to a convenience exit before term end. Transition services require an approved scope and must not be assumed free.

Schedule 3 service levels: see V-020_sla_risk_pack. The main service target is 98.0% monthly meals served within service window. A material incident requires notification, restoration coordination and a written cause/remediation record. Credits are estimates until validated under the service schedule.

Data and access: use least-privilege access, approved locations and documented retention. This dataset contains only artificial records. No actual customer, payment card, credential or protected personal data is included. Any proposed expansion of data processing requires review before access.

Continuity and exit: maintain current process or application maps, tested fallback instructions and named owners. Provide an inventory and reversible knowledge-transfer plan before transition. No alternative supplier is deemed interchangeable solely because capability keywords match.

Special condition: business acceptance and location/process coverage must be checked before consolidation.

Approval record: customer role Workplace services owner and supplier role Service Director are the intended approvers. Signature fields are deliberately not executed. All acceptance and governance states in the dataset are fictional fixture states.
